GUIDELINES FOR ENTRY POINT SCREENING OF TRAVELLERS  
(SCRENNING FOR COVID-19)

A. ADVICE TO TRAVELLERS BEFORE DEPARTURE (refer Guidelines Entry and Quarantine Process Person Under Surveillance (PUS) arriving from abroad by NADMA Malaysia)

1. Sign a Letter of Undertaking and Indemnity (LoU). All individuals traveling to Malaysia must download and complete the LoU via the following link:
   (i) Ministry of Foreign Affairs, Malaysia: www.kln.gov.my
   (ii) National Disaster Management Agency (NADMA): www.nadma.gov.my
   (iii) Immigration Department of Malaysia: www.imi.gov.my
   (iv) Ministry of Health Malaysia: www.moh.gov.my
   (v) Ministry of Transport Malaysia: www.mot.gov.my
   (vi) Ministry of Tourism, Arts and Culture Malaysia: www.motac.gov.my

2. Obtain a Letter of Approval (Entry Permit) from an accredited Malaysian Mission.

3. Present the Letter of Approval from the Malaysian Mission to Airlines, Other Public Transport Companies, and the Immigration Department of Malaysia.

4. All are required to install, activate, and register the MySejahtera application (https://mysejahtera.malaysia.gov.my/). The mobile application can be downloaded at Apple App Store, google play store, and the Huawei Apps gallery.

5. Essential information such as travel information (date and time, flight information, a port of embarkation) and health declaration needs to be input in the MySejahtera application at least one (1) day of the departure date.

6. Take swab for PCR COVID-19 test within 72 hours before departure.

B. SCREENING OF AIRCRAFT TRAVELLERS AND CABIN CREWS

1. Measures on Board Flight

1.1 Announcements

i. The flight pilot of the aircraft shall make in-flight announcements. These announcements shall be made during the flight and just before landing.

ii. These announcements shall include the following messages:
   a. During flights
      The need for cabin crew to announce the requirement of travellers with symptoms to identify themselves to the airline crew, for example, ‘Any traveller with symptoms of COVID-19 infection such as fever, cough, sore throat and breathlessness to identify themselves to the crew’.
b. Upon Landing
- Advised travellers to install and register the *MySejahtera Application* and fill up the Health Declaration Form (HDF) (Appendix 1- new) in the application.
- Inform travellers that they need to undergo a thermal scanning upon arrival.

1.2. Visual Assessment

Crew members must be vigilant on travellers with symptoms (fever, cough, sore throat, and breathlessness) that did not identify themselves.

1.3. Management of travellers with symptoms of COVID-19 by airline crew

i. The aircraft pilot needs to inform the authorities of the destination airport regarding travellers with COVID-19 Infection symptoms as soon as possible.

ii. The symptomatic traveller is given protective masks (three-ply mask) and shifts them to an empty area of the aircraft if possible. If not, vacate two rows in front and two rows at the back of symptomatic travellers.

iii. Identify a separate toilet for suspected travellers only.

iv. The crew must wear a protective mask and disposable gloves. It is advisable to wear a face shield.

v. The pilot/crew of the aircraft is to identify the close contacts of the suspected travellers.

vi. The close contacts of the suspected traveller are:
   - Any person sitting within 2 meters (4 rows in front, side, and behind) of the suspected case.
   - Any travel companions or person providing care who has close contact with a suspected case.
   - crew managing the case.
   - Anyone having contact with respiratory secretions of the infected traveller,

The pilot and co-pilot of the aircraft sitting in a cockpit are less at risk of contact with the infected traveller. He/she is not the close contact.

vii. If a crew is a suspected case of COVID-19, travellers served by him/her are categorized as close contact and to be managed accordingly.

viii. Close contact should provide their contact number and addresses to the health authorities.

ix. The crew must fill up the Traveller Locator Form for suspected cases *(Appendix 2)*.

x. Write all measures taken on-board and record it in the Report on Measures Taken Onboard Form *(Appendix 3)*.

xi. Submit both Appendix 2 and Appendix 3 to health officials upon arriving.
1.4 Management of travellers with symptoms of COVID-19 by the health authority

i. A Public Health Team (Medical Doctor, Nurse/Medical Assistant, and Assistant Environmental Health Officer) is stationed at the arrival gates.

ii. The team will go on-board to announce the health inspection procedure. The team must also request for the traveller locator form (Appendix 2), a report on measures taken on-board (Appendix 3), and a general declaration of health and flight manifest.

iii. The airline crew informs the health team of symptomatic travellers. The symptomatic travellers will be tagged with red tags. The travellers identified are to be given appropriate protective masks (3-ply) and are to be shifted to the rear of the aircraft if possible. Else, vacate two rows in front and two rows at the back of the symptomatic traveller.

iv. All travellers, except those suspected COVID-19 infections will be allowed to disembark the aircraft to proceed to COVID-19 symptoms screening.

v. Symptomatic travellers will be interviewed and examined. If they are fit for the criteria of the suspected cases of COVID-19:
   a. Refer the case to the hospital for further management and the COVID-19 test.
   b. Notify health authorities in those areas in which the contacts reside (DHO and State CPRC).

vi. The health authority must inform the airline management regarding the suspected or positive COVID-19 case and direct them to disinfect the affected airlines.

vii. Any positive COVID-19 case on board, the health authority (respective DHO) needs to.
   - Initiate contact tracing for *close contact of positive case (traveller and crew).
   - Take the COVID-19 test, issue Home Surveillance Order (HSO), and home quarantine for ten (10) days for all close contacts of positive case (traveller and crew).
   - DHO needs to work with the KLIA health office to issue HSO and take the COVID-19 test among the affected airline crew.

*refer to 1.3.vi for the definition of close contact.
C. SCREENING PROCEDURE AT INTERNATIONAL POINTS OF ENTRY (POE) FOR TRAVELLERS AND AIRLINE CREWS (FLOW CHART – APPENDIX 4)

1. Health officials must ensure all travellers and airline crews.
   a. Have had registered their details in the MySejahtera mobile application. ([https://mysejahtera.malaysia.gov.my/](https://mysejahtera.malaysia.gov.my/)). The mobile application can be downloaded at Apple App Store, google play store, and the Huawei Apps gallery.
   b. Filled-up the HDF in the MySejahtera application.
   c. Scan MySejahtera QR code for travellers upon arrival
   d. Has a valid certificate for PCR COVID-19 negative test (refer appendix 6) taken within 72 hours before departure (if transit at any other POE >12 hours before arrival, repeat COVID-19 test on arrival).
   e. If travellers have no valid certificate for PCR COVID-19, take the PCR swab test on arrival.
   f. Identify any symptomatic travellers/crews.

2. Travellers with a valid COVID-19 test certificate.

2.1 Management of symptomatic travellers/crews (Appendix 4)
   a. Further screened the travellers through history taking and examination.
      i. Travellers with severe symptoms
         • Consult Physician/ID physician for further management.
      ii. Travellers with mild symptoms
         • Take swab for RTK-Ag and sent buffer for RT-PCR.
         • If RTK-Ag positive, consult Physician/ID physician for further management.
         • If RTK-Ag negative, placed him under a home surveillance order (HSO), to wear an HSO wristband and quarantine at the Quarantine Station (QS) for seven (7) days.
   b. If the traveller/crew fit the criteria of the suspected case (annex 1), the officer in charge need to:
      i. Initiate Infection Prevention and Control
      ii. Refer the traveller to the nearest admitting hospital,
      iii. Notify DHO for surveillance and progress.

2.2 Management of asymptomatic travellers - Person Under Surveillance (PUS):
   a. Travellers are placed under a home surveillance order (HSO), to wear an HSO wristband and quarantine at the Quarantine Station (QS).
b. At QS:
   i. The health officer at QS will monitor the health status of the PUS for seven (7) days. At any time, if the PUS develops symptoms, he/she will be assessed further for the severity of the symptoms.
      a. Moderate and severe symptoms – refer to the hospital.
         • If positive, refer to the hospital (PKRC).
         • If negative, continue quarantine at QS.
   ii. On day 5, take the RT-PCR / RTK-Ag COVID-19 test. Refer to the hospital if the result is positive.
   iii. On day 7, the traveller (PUS) with a negative test result will receive the HSO release order and the wristband is removed.

3. Travellers without a valid COVID-19 test certificate.

3.1 Management of symptomatic travellers/crews (Appendix 4)

   a. Screened the travellers through history taking and examination.
      i. Travellers with severe symptoms
         • Consult Physician/ ID physician for further management.
      ii. Travellers with mild symptoms
         • Take swab for RTK-Ag and sent buffer for RT-PCR.
         • If RTK-Ag positive, consult Physician/ID physician for further management.
         • If RTK-Ag negative, placed under a home surveillance order (HSO), to wear an HSO wristband and quarantine at the Quarantine Station (QS) for ten (10) days.

3.2 Management of asymptomatic travellers

   a. Travellers are placed under a home surveillance order (HSO), to wear an HSO wristband and quarantine at the Quarantine Station (QS).

b. At QS:
   i. The health officer at QS will monitor the health status of the PUS for ten (10) days. At any time, if the PUS develops symptoms, he/she will be assessed for the severity of the symptoms.
      a. Moderate and severe symptoms – refer to hospital.
      b. Mild symptoms – take RT-PCR COVID-19 test
         • If positive, refer to the hospital (PKRC)
         • If negative, continue quarantine at QS.
ii. On day 8, take the RT-PCR / RTK-Ag COVID-19 test. The PUS with the positive test result will be referred to the nearest health centre immediately.

iii. On day 10, the traveller (PUS) with a negative test result will receive the HSO release order and removed the wristband.

4. Monitoring health status through MySejahtera
   Advised travellers (PUS) continue monitoring their health status until day 14 even though they received an HSO release order on day 7 or day 10.

5. Transiting travellers from oversea
   a. For travellers transiting through KLIA/ Peninsular airport to Sabah, Sarawak, and Labuan
      i. If travellers with a valid certificate for COVID-19 negative, allow travel to the respective state without repeat COVID-19 test.
      ii. Travellers without a valid certificate for COVID-19 negative takes samples for RTK-Ag. Allow continuing the travel plan once the result is negative (subjected to any changes from the state government/ health department).
      iii. Quarantine measure is according to respective state quarantine procedures.

6. Management of airlines *crew
   a. Commercial and cargo airline crew (International landing)
      i. Upload and update MySejahtera (QR code for the crew)
      ii. Fever screening at PoE. If fever is detected, treat it as a suspected case. If no fever, give HAT and allows self-monitoring at home/ hotel for 14 days.
      iii. Advise to seek treatment immediately, if they develop symptoms of COVID-19.

   b. Private jet crew (controlled itinerary)
      i. Ensure a crew provides a valid certificate for COVID-19 negative test taken within 72 hours before departure.
      ii. Take the RTK-Ag COVID-19 test on arrival at PoE (the cost is borne by the crew).
      iii. Airport Health Officer issues HSO with wristband until result RTK-Ag comes out. If the result is positive, refer to the hospital for further management. If the result is negative, to get a release letter from the nearest DHO. Advises crew to continue self-monitoring at home/ hotel with HAT until departing.
iv. If they develop symptoms of COVID-19, advise them to seek treatment immediately.

*crew are including pilot, steward/stewardess, and flight engineer.

7. Management of Diplomats at PoE

   a. Ensure the diplomat provide a valid certificate for the COVID-19 negative test taken within 72 hours before departure.

   b. Issue HSO with wristband and subjected for a mandatory quarantine at home for seven (7) days and provide them with the nearest DHO contact number.

   c. During the home quarantine period,
      i. Advise diplomats to call the respective DHO if they develop symptoms of COVID-19.
      ii. Inform them on the RTK-Ag COVID-19 test will be taken on day 5, and they will be referred to the University Hospitals (PPUM) or government hospital if the results are positive,
      iii. On day 7, they will receive the HSO release order.

   d. Advice diplomats to continue monitoring their health status using MySejahtera for 14 days.

Note: if no valid certificate, take RT-PCR on arrival and RT-PCR/RT-Ag on day 8. The quarantine period will be for 10 days)
D. MANAGEMENT OF SHIPS AT PORT DURING PANDEMIC

1. During the COVID-19 pandemic:
   i. All ships with positive COVID-19 (non-Malaysian) onboard is not allowed to enter Malaysian port.
   ii. All ships will be issued the quarantine status. No one can be allowed to go onboard before risk assessment done by health authority.

2. Documents that need to be sent to health authorities at least 3 days before arriving at any port in Malaysia include:
   i. Maritime health declaration
   ii. Lists of all on-signer for the past 10 days, their RT PCR results, and history of contact with the COVID-19 case.
   iii. Health status of all crew for the past 10 days
   iv. Information about death onboard and the cause of death for the past 10 days.

3. Crew of the ship except for the off signer are not allowed disembarking although free pratique has been given to the ship.

4. During COVID-19 pandemic, anybody who want to go onboard at Malaysia port for any reasons needs to get approval from health authority.

5. Managing ships

5.1 Ships without a suspected case
   a) Assistant Environmental Health Officer (AEHO) receives information regarding a suspected case onboard from Ship Captain or Shipping Agent on the ship.
   b) Once arrived at the port, AEHO will go on board for sanitation inspection on the ship, review the maritime declaration of health, and other relevant documents.

      i. A free pratique and port health clearance will be issued if the ship has a valid Ship Sanitation Control Certificate (SSCC), Ship Sanitation Control Exemption Certificate (SSCEC) and sanitary conditions are satisfactory.
      ii. If the ship has a satisfactory sanitary condition, a valid Ship Sanitation Control Certificate (SSCC), and Ship Sanitation Control Exemption Certificate (SSCEC), the Captain or Shipping Agent will be issued a Free Pratique and Port Health Clearance.

5.2 Ships with a suspected case
   The ship captain or the shipping agent is responsible for informing the port health authority of any suspected case of COVID-19 on the ship that plans to enter the Malaysian port. The port health authority needs to inform MOH for advice.
5.3 Ships with emergency cases

5.3.1 Ship with a scheduled call

a) AEHO reviews all the emergency requests from the shipping agent.
b) Verify the relevant documents and inform DHO or Port Health Officer (PHO) for decision.
c) DHO/PHO discusses with other relevant agencies at the port. The health ministry officer (Disease Control Division) may be consulted.
d) If the decision to allow entry, agent must arrange for private medical team to go on board for medical assessment. They may consult Physicians for opinions.
- Critical case: refer the case to hospital immediately
- Not critical case: COVID-19 swab test to be done before referring the case to hospital.

5.3.2 Ship with an unscheduled call (International ships without Malaysian crew)

a) AEHO reviews all the emergency requests from the shipping agent.
b) Verify the relevant documents and inform DHO/PHO for decision.
c) DHO/PHO discusses with the ministry of health officer (Disease Control Division) for opinion.

5.3.3 Ship with death case onboard

a) Review and verify all the relevant documents and inform DHO or PHO for decision.
b) DHO/PHO discusses with the ministry of health officer (Disease Control Division) for opinion.

6. Notify all suspected COVID-19 cases to the National CPRC, State CPRC, and the nearest DHO.

7. Ship entering Malaysian ports for repair and maintenance.
   - Before the embarkation of the above-related individual, all onboard crew should be tested negative for COVID-19.

8. All International cruise ships are not allowed to enter all ports in Malaysia except in such conditions:
   i. Disembarkation of a seriously ill crew/traveller.
   ii. To receive supplies (food, water, gas) and repair or maintenance work for the vessel.
   iii. Sign-on /sign-off of the crew with approval from the Maritime Department, Immigration Department, and the Ministry of Health.
E. CREW CHANGE PROCEDURE FOR SEAFARERS AND OFFSHORE WORKERS (FLOW CHART- APPENDIX 7)

1. **Procedure for Seafarers** (all cost for quarantine procedure and COVID-19 test borne by shipping Company or Agent). Crew change must be done at the dock and not at anchorage.

1.1 **SIGN-ON**

1.1.1. **Malaysian seafarers**

   i. They are to be given HSO and wristband by DHO or an authorised officer/MO at private clinic. Quarantine at home/QS (according to assessment by PHO/DHO).

   ii. If the result is positive and categorized as

      - category 1 and 2, continue quarantine at home/PKRC/Private hospital for 10 days. Seafarer has to contact the nearest COVID-19 Assessment Centre (CAC) to identify place for quarantine.
      - category 3/4/5, to be referred to hospital for further management.

   iii. If the result is negative continue quarantine at home/QS.

      - The on-signer monitor their health status daily using Health Assessment Tool (HAT)/ MySejahtera and do RTK-Ag test on day 8.
      - If symptoms develop during quarantine period, to seek treatment at the nearest health centre.

   b. On day 10, seafarer need to go the nearest DHO for release order and allow to sign-on if:

      - Test results are negative.
      - Asymptomatic

   c. Document required before signing-on are:

      - Day 1 RT-PCR test result.
      - Day 8 RTK-Ag test result.
      - The release order.

   d. If sign-on is cancelled or postponed due to specific reason at day 11:

      - If sign-on between day 11 to day 15, no repeated COVID-19 test required.
      - If sign-on after day 15, RTK-Ag is mandatory.
      - On-signer must continue quarantine until sign-on day.
1.1.2. Non-Malaysian and seafarers from abroad

a. All seafarers from abroad require the following procedure to enter Malaysia as per SCREENING PROCEDURE AT INTERNATIONAL POINTS OF ENTRY (POE) FOR TRAVELLERS AND AIRLINE CREWS (1-5).

b. Non-Malaysian seafarer resides in Malaysia required to take RT-PCR test 10 days, RTK Ag on day 8 before sign-on and completed quarantine procedures at QS for 10 days.

c. The crew is allowed to sign-on once completed the mandatory quarantine period with COVID-19 test negative and the ship has arrived at the port of call.

d. If sign-on is cancelled or postponed due to specific reason at day 11:
   1. If sign-on between day 11 to day 15, no repeated COVID-19 test required.
   2. If sign-on after day 15, RTK-Ag is mandatory.
   3. On-signer must continue quarantine until sign-on day.
   4. If symptoms develop during quarantine period, advice to seek treatment at the nearest health centre.

1.2 SIGN OFF

1.21 Malaysian and non-Malaysian

a. Document and information required from the captain to be obtained from shipping agents:
   - Maritime health declaration and other health-related document
   - Last port of call for the last 10 days
   - Provide evidence of registration in the MySejahtera application.
   - List of on-signers (international) for the past 10 days
     - History of contact with positive COVID-19
     - Fever monitoring and health status of all crew on board

b. Take samples for RT-PCR COVID-19 test by private practitioner at the port of entry.

   i. They are to be given HSO and wristband by DHO or an authorised officer/MO at private clinic. Quarantine at home/QS (according to assessment by PHO/DHO).

   i. If the result is positive and categorized as
      - category 1 and 2, continue quarantine at home/PKRC/Private hospital for 10 days. Seafarer has to contact the nearest COVID-19 Assessment Centre (CAC) to identify place for quarantine
      - category 3/4/5, to be referred to hospital for further management.

   ii. If the result is negative, continue quarantine measures for 10 days. If symptoms develop during quarantine period, advice to seek treatment at the nearest health centre.
iii. Give a release order on day 10 if RTK-Ag/RT-PCR on day 8 is negative.

1.2.2 For seafarers with a stationary ship or operating exclusively in domestic water for more than 10 days and no on-signers for the past 10 days, the procedures are as follows:

- Seafarers intending to fly abroad after signing off.
  i. Take samples for RT-PCR COVID-19. They are to be given HSO and wristband by DHO or an authorised officer/MO at private clinic. Quarantine at QS.
  ii. If the results turn out positive and categorized as
      - Category 1 and 2: quarantine at QS/PKRC for 10 days
      - Category 3/4/5: refer to the nearest hospital for further management.
  iii. If the results turn out negative, continue to serve a mandatory quarantine for 10 days with RTK-Ag on day 8, or until the date they are expected to travel abroad (with proof of flight ticket if less than 10 days).
  iv. If symptoms develop during quarantine period, advice to seek treatment at the nearest health centre.

- Seafarers to stay in Malaysia after signing-off.
  i. Take samples for RT-PCR COVID-19. They are to be given HSO and wristband by DHO or an authorised officer. Quarantine at home/ QS (according to assessment by PHO/DHO).
  ii. If the results turn out positive, assess for categorization. If categorized as:
      - Category 1 or 2: quarantine at QS/ PKRC
      - Category 3/4/5: refer to the nearest private hospital for further management.
  iii. If the results turn out negative, continue quarantine for 10 days.
  iv. Self-Monitoring of health status through MySejahtera application daily. At any time, if they develop symptom like fever, cough, runny nose, sore throat, and shortness of breath, the case is to be referred to the nearest health centre.
  v. If asymptomatic, give a release letter, and removed the wristband on day 10.
2. Procedure for Offshore Workers

2.1 Embarkation of Malaysian/Non-Malaysian offshore workers resided in Malaysia.
   a. Take RT-PCR COVID-19 test at any private lab/health centre approved by the MOH.
   ii. They are to be given HSO and wristband by DHO or an authorised officer/MO at private clinic. Quarantine at home/QS (according to assessment by PHO/DHO).
   iii. If the result is positive, assess for categorization. If the crew categorized as:
      • Category 1 or 2: continue quarantine at home /PKRC/Private hospital for 10 days. Offshore workers has to contact the nearest COVID-19 Assessment Centre (CAC) to identify place for quarantine
      • Category 3/4/5: refer to the private hospital for further management.
   iv. If the result is negative, continue quarantine, monitor health status, and take RTK-Ag on day 8.
   v. If symptoms develop during quarantine period, advice to seek treatment at the nearest health centre.

   b. On day 10, allow to sign-on if:
      • Both test results were negative
      • Asymptomatic
   c. The documents required before sign-on are:
      • Day 1 RT-PCR test result.
      • Day 8 RT-Ag test result.
      • The release orders.

2.2 Embarkation of offshore workers from abroad

   a. **The procedure as a sign-on procedure for seafarers from abroad (1.1.2) - refer appendix 4.**
   b. The workers are allowed to sign-on once completed the quarantine period with a negative COVID-19 test.

2.3 Disembarkation of offshore workers

   i. Undergo the RT-PCR COVID-19/ RTK-Ag test.
   ii. If the result is positive, assessment to be done. If categorized:
      a. Category 1 or 2: quarantine at home /hotel/PKRC
   iii. If the result is negative, allow them to disembark. They are to be given HSO and wristband by DHO or an authorised officer. Quarantine at home/ QS for 10 days (according to assessment by PHO/DHO).
iv If symptoms develop during quarantine period, advice to seek treatment at the nearest health centre.

2.4 Offshore workers with a day trip to the oil and gas platform, are exempted from COVID-19 test and quarantine procedure.

Note:
- All positive COVID-19 individual must be notified to the nearest PKD
- For all Malaysian travellers, crews, seafarers and offshore workers with positive COVID-19 test result, refer to the government hospital for further management and to refer non-Malaysian to private hospitals.
- Please assess all Malaysian travellers, crews, seafarers and offshore workers with positive COVID-19 test result to categorise them as C1 to C5 for decision hospital admission or to be isolated at home/hotel/PKRC.

F. AWARENESS TO PUBLIC, TRAVELLER, CREW, AND HEALTH STAFF ON COVID-19 INFECTION

Increase travellers/crews/seafarer/offshore workers awareness of COVID-19 which include infection prevention and control measures through:

i. Distribution of pamphlets and posters online massages.

ii. Regular update of information on social media – Website, Facebook (FB)

iii. Talks and briefings on COVID-19 transmission mode, prevention and control measures.

iv. Health announcements and messages focus on public and tourist sites, especially at international airports and seaports.

v. Continuously update all health staff and ground handlers on COVID-19, current information and findings includes environmental cleaning and disinfection at PoE.

vi. Continuously remind staff/crew/travellers to Avoid 3 C, practice 3W and practice physical distancing.

AVOID 3C
- Avoid crowded places,
- Avoid confining and closed place - increase in airflow in a closed space and
- Avoid close conversation and talking at close range.

PRACTICE 3W-
- Regular hand washing with water and soap or hand sanitizer.
- Wear a mask.
• Warn your family and friend to avoid 3C and practice 3W and practice physical distancing of at least 1 m between individuals and taking care of personal hygiene.

G. COLLABORATION WITH OTHER AGENCIES/MINISTRIES

Ministry of Health (MoH) Malaysia collaborates with other relevant agencies such as The Immigration Department of Malaysia, airport/port/ground crossing authorities and agencies, airlines, shipping companies, ground handlers, etc.

1. Dissemination of information regarding COVID-19 infection to personnel and clients going to / coming from the affected countries to increase their awareness and preventing the spread of disease in Malaysia.

2. The Immigration Department of Malaysia is to assist the health personnel in referring travellers from abroad for health assessment.

3. All owners of aircraft/ships/vehicles are required to inform the health authorities at the points of entry if there are travellers from abroad showing signs and symptoms of COVID-19 infection.

4. Malaysia Civil Défense Force and Royal Malaysia Police is to assist MOH in random patrolling home surveillance.

5. Civil Aviation Authority in Malaysia and the Ministry of Foreign Affairs is to support the dissemination of information regarding traveller’s requirements before departure to Malaysia.
